Onboarding Guide

frontendsimplified.com

Welcome

Congratulations - the training is done. Now comes the part it was all building toward: landing the job. And you won't be doing it alone; we're with you at every step.

This guide is your roadmap for what happens next: how the process works from initial profile review to job offer, the weekly activities we recommend, the Job Guarantee, and the support calls available to you along the way. Read it fully before booking your first call.

How It Works

01 Activation and Preparation

Complete the Job Applications Module and submit the initial profile review request. Our team reviews your profile and you receive an email with your reviewed profile, recommendations and gap analysis.

02 Your First Support Call

Once your review arrives, book a call – or more than one, if you need it: a Material Call to go through your reviewed files together, and/or a Strategy Clinic for tips and strategies before you start applying. Come prepared with your questions – you'll leave with a solid action plan for the next stage. See **Your Support Calls Page** all four calls and when to book each.

03 Active Job Search

Once you're happy with your profile, start applying — see **Recommended Weekly Activity** for your weekly targets. Alongside applications, you close the gaps from your gap analysis and build role-relevant projects for your portfolio. Added something new? Book a call anytime and the Career Team will review it. And if you ever feel stuck — applications not converting, unsure what to learn next, an interview coming up — book the call that fits and we'll get you moving again.

04 Iterate Until Placed

The process repeats — refined targeting, new gap analysis, new project, updated resume — until you land the job. Once you receive an offer, notify the Career Team within 24 hours. We'll then schedule your exit interview — a final call where we celebrate your win, walk you through the next stages, and set you up with alumni support.

Your Support Calls

As part of your career support, you have access to four types of calls. Book each one via the links sent to you by email after you submit the survey.

1 Material Call

Purpose: Go through your reviewed files together.

What to expect: Your advisor walks you through your reviewed profile, recommendations, and gap analysis, explains the strategy behind them, and answers all of your questions. You leave with a clear plan for week one.

When to book: Recommended as your first call - book it via the prompt in the email you receive after submitting the survey.

2 Catch-up with Career Advisor

Purpose: Your go-to call for anything during the job search.

What to expect: Hands-on support with whatever you need right now - a specific application, help with tools, a CV, LinkedIn, or GitHub check-up, networking messages and follow-ups, or simply a boost to stay motivated and on track.

When to book: Whenever you need your advisor - no issue is too small.

3 Strategy Clinic

Purpose: Application strategy, low-traction diagnosis, and up-skilling direction.

What to expect: A deeper session where we diagnose why applications aren't converting and rework your strategy - or map out what to learn next for your target role, with recommended materials.

When to book: When you're applying consistently but not getting the responses you expect, or when you want direction on what to learn next.

4 Interview Preparation

Purpose: Get ready to perform at your best in upcoming interviews.

What to expect: Mock interviews and targeted preparation covering technical questions, behavioural questions, and how to present your projects and experience with confidence.

When to book: As soon as you have an interview scheduled - or on the horizon and you want to be ready.

How to Book Your Calls

All calls are booked from one place: [LINK](#)

1. Open the booking page
2. Choose the call you need
3. Pick a date and time that suits you
4. Answer a few short questions so your advisor can prepare

You'll receive a confirmation email with the call details, plus a reminder 2 hours before the call - by email, and by text if you provided your phone number.

Recommended Weekly Activity

To get the most out of your job search - and to stay in line with the Terms & Conditions of our Job Guarantee - we recommend the following weekly activities:

Activity	Per week	Recommendations
"Curated" job applications	30	▪ A real, active, vetted role ▪ Full-time position with salary \$60,000/year or above ▪ IT-related role ▪ Applied directly via the company's own website ▪ Tailored CV and cover letter for each ▪ Each application logged in the tracker with proof
Networking messages or emails	10	▪ Follow-ups 2 weeks post application ▪ Sharing projects ▪ General outreach to build your network ▪ Each outreach logged in the tracker with proof
Technical skill development	5h+	▪ External courses ▪ Log what you worked on, for how long, and link to any output (e.g. GitHub)
Project	1	▪ A project applying your new skills to a problem at a company of interest ▪ Utilize AI
Advisor touchpoint	1	▪ A quick email update on your progress - or book a call when you need one ▪ All calls are on demand via the scheduling page ▪ If you book a call, come prepared and give 24 hours' notice to cancel
Tracker Updates	Daily	▪ All fields filled, proofs attached

Why it matters: This keeps you within the Job Guarantee terms - and it's what gets you hired.

Questions or Issues?

If anything is unclear, you run into trouble with booking or simply have a question related to your career journey, we're one email away: careers@fesinstitute.com.

We reply within one business day.

We're excited to work with you – let's land that job.
